Got a closet full of shoes you never wear?

Donate them to the Walk in My Shoes Global Project!

The objectives of the Walk In My Shoes Global Project are to provide new and gently used shoes to children in developing countries. Walking without shoes on soil and rocky surfaces can result in parasite infestation, infected cuts or other health problems. An important component of the mission is to bring awareness of the level of poverty among children around the world. This economic condition affects all aspects of their human existence.

How can you help?

The Montgomery College Students in Free Enterprise (SIFE) team is supporting this project by coordinating a shoe drive on the Montgomery College Rockville campus beginning Tuesday, March 2nd, through Tuesday, March 9th. Please consider donating new or gently-used shoes up to size ten (no high heels) at one of the following locations around the MC-Rockville campus:

- Library (Macklin Tower)
- MBI Office (HU 208)
- Prof Baick’s office (HU 259)
- Office of student life (Downstairs in Campus Center)

All shoe donations will be sent to Sierra Leone in June, 2010.

If you are interested in having your department listed as an official collection site, please contact MBI@montgomerycollege.edu. If you don’t have any shoes to donate but would like to help this worthy cause, you can visit http://www.walkinmyshoesglobalproject.com/ and make a donation to support the next shipment of shoes. Please note that this site was redesigned by members of our Montgomery College SIFE team to help this non-profit organization in achieving its mission.
