Professor Sheppard, Michelle Lee, and Kathy Hill.

Upon entering this refreshing sunlit room, one can escape the business of the day to entertain and enjoy the vista while sipping your tea, scones and afternoon sweets.

The elegantly dressed table is topped with silver and fine china and framed by custom hand painted rug. The window treatments create a light airy feel allowing sunlight to stream through. The ceiling lattice treatment along with paisley fabric used throughout the room creates a garden atmosphere that is perfect for afternoon tea!
