6:00 P.M.

Halloween Storytime at the Planetarium - 6:00 PM

Young learners and their adults are invited to join us for a magical night of stargazing and storytelling! Explore shapes in the sky you can spot from your backyard under the light of the full moon. Then, a live narrator will bring classic picture books to life overhead on the planetarium dome.

Children are invited to wear their Halloween costumes (or comfy pajamas) and bring their favorite stuffed animal.

Recommended for ages 2+.

Children must be accompanied by an adult.
