Nonprofit Training Institute

Nonprofit Leadership Boot Camp

The Nonprofit Leadership Boot Camp focuses on developing the leadership potential and capacity of emerging leaders serving our community and striving to create beneficial change for people and the environment in which they live. Designed for participants who are either new to a nonprofit leadership role or looking to expand their leadership confidence and competence from within a mid-level leadership position in a nonprofit. This seminar engages participants in clarifying the role of leadership in their lives and their work, developing strategies to advance their individual leadership aspirations, and mastering frameworks that support leadership success. These skills and understanding are then applied to key areas of nonprofit organizational management with opportunities to assess and recreate systems that align our day-to-day work with the outcomes we want to create for ourselves and the organizations we serve. The program introduces practical tools and frameworks and then uses them to explore the different management domains of governance, programming, finance, human resources, strategy, communications, and engagement.

For priority consideration, including scholarships apply by Monday, 2/17/2020.
